ABOUT COMPANY

Our advantage lies in our qualified workers, unwavering commitment to safety, utilization of the best materials, and focus on delivering high-quality results. This sets us apart and ensures exceptional outcomes for every project we undertake.

We are an Egyptian company specializing in petroleum and marine services, as well as offering general services for various industries. Our experienced team ensures high-quality solutions, and we have a proven track record of successfully delivering projects for prominent companies.

COMPANY HISTORY

our company has a rich history in providing exceptional petroleum and marine services, delivering industry-leading solutions since our inception.

Heat Exchanger Cleaning

Proper cleaning of heat exchangers is vital for optimizing their performance and ensuring uninterrupted operation in industrial and commercial applications.

Rehabilitation of Oil Refining Unit

Enhancing the efficiency and quality of a refining oil unit through the rehabilitation of its tubes and vessels, optimizing its performance.

Removing Fouling from ships

Our specialized marine fouling removal services involve the thorough elimination of accumulated fouling on ships' surfaces, we effectively cleanse and prepare the surfaces, enabling smooth sailing and minimizing maintenance requirements.

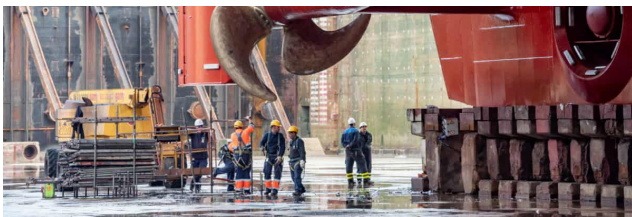

OUR SERVICE

We deliver top-notch services that surpass your expectations and cater to the specific requirements of your business.

Petroleum Services

Our diverse portfolio of petroleum services includes heat exchanger cleaning and maintenance, water blasting, oil tank and vessel cleaning, as well as refining tower maintenance. We are dedicated to delivering exceptional solutions to the petroleum industry.

Marine Services

With our specialized marine services, we excel in paint and rust removal, fouling removal, and surface preparation. We are committed to ensuring the highest standards in maintaining and optimizing marine assets for optimal performance.

General Services

In addition to our specialized services, we provide comprehensive general industrial solutions. Our offerings encompass equipment provision, welding services, valve maintenance, testing, and ensuring optimal support across various industries.

Hydro blasting

High-pressure water cleaning for effective surface preparation.

Hydro demolition

Advanced hydro demolition services for precise concrete removal.

Valve maintenance

Expert valve maintenance and precise testing services provided.

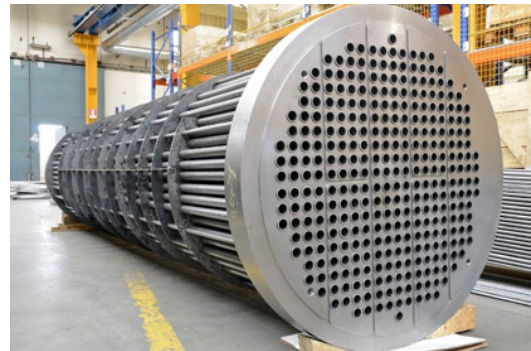

Petroleum Services

01 Heat exchanger cleaning

provides efficient and thorough heat exchanger cleaning services, ensuring optimal performance and longevity.

02 water blasting

Our water blasting services provide efficient and effective cleaning solutions, removing stubborn contaminants and restoring surfaces to their optimal condition.

03 Tubes and pipes cleaning

We provide efficient and effective tube cleaning services, utilizing advanced techniques and equipment to ensure optimal performance and longevity of the tubes.

04 Tanks Cleaning

provides efficient and thorough heat exchanger cleaning services, ensuring optimal performance and longevity.

05 Refining towers cleaning and maintenance

We specialize in refining tower cleaning and maintenance, ensuring optimal performance and longevity for the crucial components of the refining process.

06 Coolers cleaning

We specialize in efficient and thorough cooler cleaning services, ensuring optimal performance and longevity of cooling systems.

Marine Services

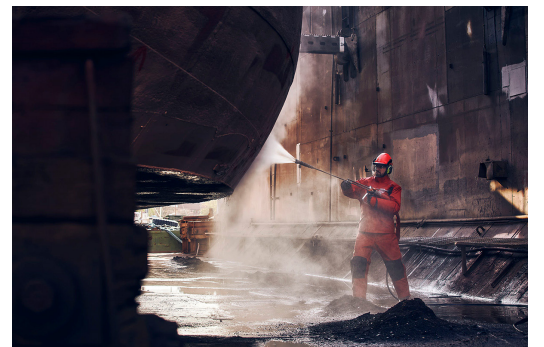

01 ships cleaning

We specialize in comprehensive ship cleaning services, ensuring efficient removal of marine fouling and maintaining optimal vessel performance.

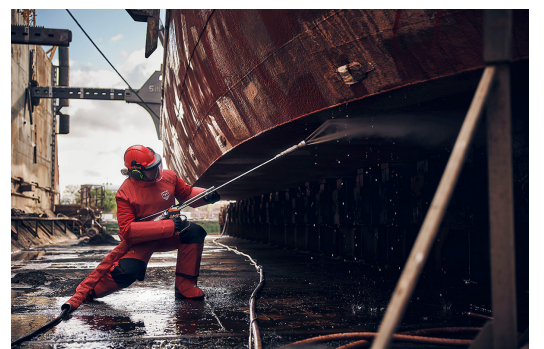

02 Removing fouling

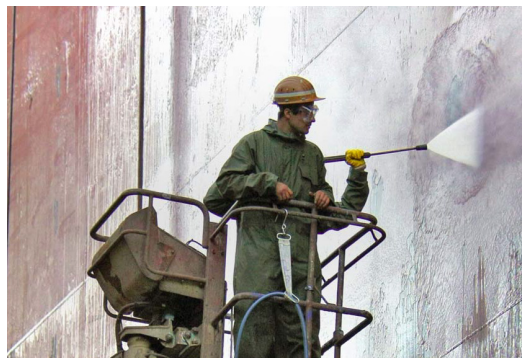

Our expertise lies in the effective removal of fouling, employing cutting-edge methods to enhance performance and efficiency across diverse sectors.

03 Paint stripping

We excel in professional paint stripping solutions, employing cutting-edge methods to eliminate coatings and rejuvenate surfaces to their pristine state.

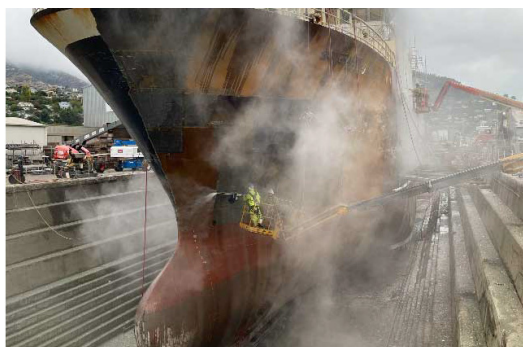

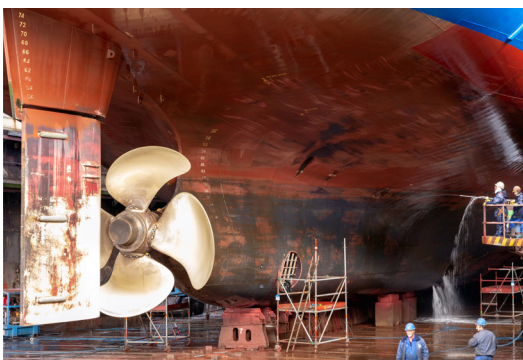

04 Offshore platform cleaning

With our expertise in offshore platform cleaning, we ensure the optimal performance and safety of platforms in challenging marine environments, upholding industry standards and regulations with precision and efficiency.

05 Propeller cleaning

We employ cutting-edge methods and state-of-the-art equipment to optimize the performance and efficiency of marine vessels through propeller cleaning, ensuring their structural integrity is preserved.

General Services

01 Renting heavy equipment

Our company offers a comprehensive range of heavy equipment rental services, providing you with access to top-quality machinery for your projects.

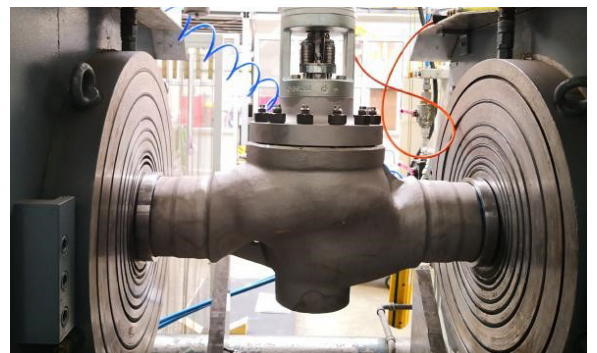

02 welding services

We specialize in delivering expert welding services, catering to diverse industrial sectors and ensuring the highest standards of craftsmanship.

03 Valve maintenance, testing, and calibration

With our expertise in valve maintenance, testing, and calibration, we guarantee the smooth operation and longevity of your critical systems.

04 Concrete removing

Our team is proficient in concrete removal, employing advanced techniques and equipment to efficiently and safely dismantle structures.

05 Surface preparation

We excel in surface preparation, utilizing cutting-edge methods to create the ideal foundation for coatings, repairs, or renovations.

06 Hydro demolition

Utilizing precise hydro demolition techniques, we can effectively remove concrete while minimizing damage to surrounding areas and structures.

High pressure Jet Pumps

We offer a diverse range of high-pressure jet pumps designed to meet various industry needs. Our pumps are available in different pressure ranges, from 665 bar to 2800 bar, and offer efficient performance for a wide range of applications. With flow rates ranging from 20 to 65 liters per minute, our pumps provide the necessary power and versatility for demanding cleaning and maintenance tasks. In addition, we provide a comprehensive selection of high-quality nozzles and hoses to complement our pump systems, ensuring optimal performance and reliability.
